

I am saddened by Sinclair Broadcasting's decision to air and to force their subsidiaries to air anti-Kerry programming without broadcasting an equal and fair counterpoint. As a company that uses public airwaves free of charge, they owe the American people more than that. They need to live up to our nation's great tradition of fair and unbiased media coverage of real issues. Shame on them for attempting to undermine the great American values that many great American leaders before us have worked so hard to build up. They are resembling more and more a totalitarian regime's form of media and less and less the media of a free and fair democracy. How un-American of them!

Thank-you for your consideration of these important issues,  
Valerie Lancelot
